

July 20, 1938

Mr. Francis Lyman  
Boulder, Utah

Dear Sir:

REL: BOULDER CREEK DISTR.

In my letter to you of June 28, 1938, I inquired concerning the sketch map of the Boulder Creek distribution system, which you indicated was of record in this office, asking that you advise me for what reason the map was submitted to the office, when and by whom it was submitted, in order that I could locate the map if it be attached to some of the files pertaining to an Application.

To date I have had no reply. I am anxious to complete your reports of the distribution of water of Boulder creek and would like to complete the reference made to this map before the report be filed.

Yours very truly,

T. H. Humpherys  
STATE ENGINEER
